How does MAPS approach LEDS Planning?

LEDs LAC Webinar 7 May 2015
What is MAPS?

- Developing Country Collaboration
- Country Project
- Country Project
- Country Project
- Country Project
- Government Led Process
- Key Stakeholders
- Facilitation
- Local Researchers
- Providing Evidence and Options to Policy Makers
## Key to MAPS Approach

<table>
<thead>
<tr>
<th><strong>APPRAOCH NOT METHODOLOGY</strong></th>
<th>Country specific, responsive not prescriptive</th>
</tr>
</thead>
<tbody>
<tr>
<td><strong>COUNTRY LED</strong></td>
<td>Multi-ministerial mandate, legitimate</td>
</tr>
<tr>
<td><strong>CO-PRODUCTION OF KNOWLEDGE</strong></td>
<td>Country: stakeholders, researchers. Collaboration: input</td>
</tr>
<tr>
<td><strong>FACILITATED PROCESS</strong></td>
<td>Consultative, multiple viewpoints, relevance</td>
</tr>
<tr>
<td><strong>SOUTHERN LED</strong></td>
<td>Local researchers, development focus, credible</td>
</tr>
<tr>
<td><strong>COLLABORATION &amp; SUPPORT</strong></td>
<td>Capacity building within country and community</td>
</tr>
<tr>
<td><strong>EVIDENCE</strong></td>
<td>Informed targets and decisions. More viable implementation, achievable targets.</td>
</tr>
<tr>
<td><strong>INNOVATION</strong></td>
<td>Evolving best practice, learning by doing, out the box</td>
</tr>
</tbody>
</table>
Who is MAPS?

SOUTH SOUTH COLLABORATION
Collaborative activities

Regional collaboration between LAC countries occurs through:
Thematic workshops (4 workshops per year between 2012 and 2015)
Bilateral cooperation between countries on research and process,
Preparation of papers of investigation and prosecution.
INDC regarding:
Working paper: Thoughts on the choice of form of an INDC authors of MAPS International, South Africa, Peru and Chile.
ADP joint presentations in meetings and other activities under the UNFCCC.
Regional collaboration has helped to share the institutional arrangements for the development and adoption of INDC (eg Chile, Colombia and Peru have inter ministerial Steering Committees).
Regional collaboration has fostered technical debates about the kinds of contributions and common narratives in the region, such as competitiveness and South-South cooperation.
MAPS & INDCs

MAPS & INDC

National processes started between 2011 and 2012 - when the term INDC not exist.

Inform emphasis on domestic policy, including positioning for international negotiations.

Today: All MAPS local teams are directly informing the INDC of their respective countries. The reasons stated:

Evidence generated is robust and credible (local data) - resulting in at least three years of work.

Evidence generated is validated by a relevant set of stakeholders including representatives from academia, public and private sector and civil society.

Evidence integrated in the national context, prioritizing development.
Research activities

- Development and Mitigation Policy approaches
- Institutional arrangements
- Tracking MAPS Processes – Legacy outputs
- Implementability
- Equity
- Uncertainty assessments
- Linking economic and sectoral models
- Development first modelling framework
MAPS Outputs

- LTMS Review
- Coursera MOOC – end of 2015
- MAPS Book – end of 2015
- Case Studies and research papers
